Summary

I'm looking for challenging work that aligns with my values. I have a broad set of skills developed over a decade working at top technology firms. I'm a fast learner and I'm at my best when combining my talents in mentorship, communication, and engineering.

Work Experience

DATA ENGINEERING CONSULTANT, BERNIE SANDERS 2020, 2020

I advised the full-time campaign staff on engineering practices and built voter data pipelines using Amazon RedShift and dbt.

ENGINEER / ENGINEERING MANAGER, FACEBOOK, 2012-2020

- 2018-20 Lead Client Engineer on Novi Wallet for Libra. As one of the first engineers on Libra and the first staff on the user-facing product, I helped hire the initial Novi team and owned devising the overall product architecture.
- 2015-18 Engineering Manager for a team of 10 on an operating systems research project. I led an effort to build out novel methods for compiling production mobile applications.
- 2014-15 Started the Origami Studio design tool project.
- 2012-14 Client engineer on Facebook Paper for iOS.

SENIOR SOFTWARE ENGINEER, GOOGLE, 2010-2012

Tech Lead/Manager on Google Hangouts

FOUNDER, PLANNR, 2009-2010

Plannr was a social calendar app for iOS and Android.
Plannr was acquired by Google in 2010.

SOFTWARE ENGINEER, MICROSOFT, 2008-2009

Platform Graphics and Security on Silverlight

SOFTWARE ENGINEER, COOLIRIS, 2007-2008

Systems engineering on a 3D browser plugin

Education

Stanford University, B.S. Computer Science, 2008
